Subject: FW: 5W's ICO Hospitalization of Pvt Benway from HQ 5/14 (AD, I-I Staff)

Sir,

Below are the 5w's from 5/14 concerning the hospitalization of an AD Pvt for observations associated with erratic mental behavior. The unit is currently processing this Marine for AdSep for a pattern of misconduct and drug use (unrelated to this episode).

The unit is completing all required reporting.

Subject: 5W's ICO Hospitalization of Pvt Benway from HQ 5/14 (AD, I-I Staff)

Sir,

BLUF: At ~0400 on Wednesday, 15 July Private Benway (active duty, Artillery mechanic) was taken to and admitted to the Long Beach VA Healthcare Center by three I&I Marines after he called the PMO aboard Navy Weapons Station Seal Beach to report the presence of recording devices in his barracks

room, having hallucinations, and other erratic behavior. He will remain a patient at the Long Beach VA Healthcare Center for approximately 72 hours. 5/14 will complete Flash report and OPREP-3.

Who: Pvt Benway, Jeffery W. 1538126922/2131 Battery N, 5th Bn, 14th Mar (AD)

What: Admitted to Long Beach, CA VA Healthcare Center

When: 0400/20200715

Where: Long Beach, California

Why: Pvt Benway (2131/artillery mech) arrived at the unit straight from his MOS school which is less than optimal for an independent duty. He has been NJP'd once by the battery (17 Feb/article 86) and twice by the Bn I-I, one of which was for a positive drug test (cocaine). He is in the process of being AdSep'd. Chain of command is in communication with hospital staff.
